| MODERN REMODEL |

Scottsdale interior designer **Bonnie J. Lewis of 55+ TLC Interior Design** faced a tough task when it came to redesigning a bathroom in a Troon home. Her challenge? To redesign the space without having to redo the plumbing. “They wanted their vanilla master bathroom transformed into a light, bright colorful contemporary space,” says Lewis. To achieve this, Lewis kept the symmetry of the room but expanded the water closets by removing storage space, created one large open shower, and replaced the dated full-size mirrors covering the walls with a handpolished porcelain tile wall. She says her clients loved the contemporary and elegant space. And they weren’t the only ones heaping praise on the project. *Kitchen & Bath Design News* magazine awarded the bathroom first place in the 2016 Kitchen & Bath Design Awards in the best universal design kitchen or bath category. 15029 N. Thompson Peak Parkway, Scottsdale, 480.696.3187, 55plustlc.com

COLOR POP
Interior designer Bonnie J. Lewis added Kohler vessel sinks and Silestone quartz countertops to give the bathroom a more modern feel.

SINK IN Octagon washbasin and base, \$8,000, by Villeroy & Boch, at Ferguson and R&R Wholesale Plumbing

| MODERN PEDESTAL |

Crafted from TitanCeram, a clay, quartz, feldspar and titanium oxide that allows precise design in high-quality ceramics, **Villeroy & Boch's** jewel-like Octagon washbasin and cylindrical base were created by Kai Steffan, who admits the difficult form and finely drawn sharp edges can only be achieved using TitanCeram. The washbasin's base can be customized in real wood, stone veneer or leather. Central Arizona Supply, 16431 N. 90th St., Scottsdale, 480.922.9191, centralazsupply.com; R&R Wholesale Plumbing, 7830 E. Redfield Road, Ste. 8, Scottsdale, 480.991.9624, rrwholesale.net; villeroy-boch.com

| IN TOUCH |

For those who find knobs and levels and anything manual so 20th century, **Kohler** debuted the DTV+ digital shower system. The interface, a sleek touchpad, brings together water, steam, lighting and music for a multisensory experience. The system is customizable (you can save six presets), and also comes equipped with preprogrammed hydrotherapies. The DTV+ system, at a minimum, requires one interface (\$995), a K-99694 mounting bracket (\$80) and the K-99695 system controller (\$865). Ferguson, 8340 E. Raintree Drive, Scottsdale, 480.556.0103, ferguson.com; kohler.com
